PCB BASED CONTROL PANEL

Why It Matters:

- **Toolless maintenance**
  - All I/O connections, hot swappable, 100% toolless
- **Simplified Design for Reliability**
  - Panel board mounted, less wire=less failure points
  - Dramatically reduced labor & maintenance
- **Compact Footprint**
  - Ideal for high-density automation
  - Reduced panel size by up to 50%
- **Highly scalable**
  - Build quicker, smaller, and more repeatable panels
